Partial parry If a parry connects with recovery frames or an irreversible attack, a partial parry is obtained. [3] Tracking R1 is parial. [4] Pickaxe fully charged 1h R2S, 2h R2S, and 2h loaded R2S still parial. The attack will not be diverted, the user will not be stepped, and the damages (as well as the resistance damage) taken will be reduced by function of the parry tool used. Parry A parry is the act of counteracting the body attack of an enemy by using a parry-enabled tool, such as a shield or a weapon (for example, the great Farron sword) to stun the enemy for a follow-up attack.
